Authorized as Second Class Mail, Post Office Department, Ottawa

VOLUME 31: No. 22

ACME, ALBERTA, THURSDAY, JUNE 5th, 1952

\$2.00 a Year; 5c a Copy

Mr. J. Metzger is a patient in Calgary hospital undergoing a serious operation.

Mrs. W. Schacher is a patient in the Calgary General Hospital. We wish her a speedy recovery.

Voters are reminded that the Hospital Plebiscite will be held June 7th from 10:00 a.m. to 8:00 p.m.

Mrs. Fred Ohlhauser of Vancouver is visiting at the home of her two sons, Bill and Reuben Ohlhauser.

The Legion are holding their Annual Picnic on Sunday, June 8th at 1:30 at the Grand Forks Sports Grounds. All veterans and families are cordially invited. Please bring lunch. Turn out and make this one grand afternoon. Ice cream, etc. will be served.

Frank E. Harris
"Watch Repair Specialist"
Carbon, Alberta

CARBON BAPTIST CHURCH
Sunday School every Sunday morning at 10:00
Mr. Albert Weigum, Superintendent
Morning Worship every Sunday morning at 11:00
Evening Evangelistic Services every other Sunday evening
JACOB G. ROTT, Pastor.

ZION BAPTIST CHURCH
Sunday School every Sunday morning at 10:00
Mr. Rudolph Bertsch, Superintendent
Morning worship every Sunday morning at 11:00
Evening Evangelistic Services every other Sunday evening
JACOB G. ROTT, Pastor.

CHRIST CHURCH, CARBON
Rev. G.B. Hotchkis, B.A., Lth. Organist, Mr. Hugh Isaac
Sunday, June 8th
Evensong at 7:30 p.m.
Church School every Saturday at 2:30 p.m.

Mr. Len Hay is quite ill at his home.

Mrs. Jack Gibson is a patient in the Three Hills hospital.

Carbon Seniors play their first league game June 4th against Swalwell.

Sammy Gouldie, who is stationed with the R.C.N. at Halifax, is home on 30 days leave.

Mrs. Ted Sherring was a weekend visitor at the home of Mr. and Mrs. Dick Sherring.

Mr. and Mrs. Fred Harsch and Mr. Perman, Sr. have left for a three weeks trip to California.

Mr. and Mrs. Dick Poole were weekend visitors at the home of Mr. and Mrs. Nadasdi of East Coulee.

Newcastle and Carbon High School played a doubleheader on Sunday, Carbon winning one, second one a tie.

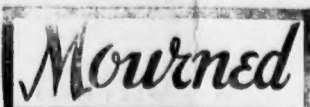

Mrs. G. Jones of Kimberley was visiting at the home of her sister and brother-in-law, Mr. and Mrs. Sam Garrett.

Mr. Dale Poren and Lorraine Milligan were weekend visitors at the home of Mr. Len Poxon and Mr. and Mrs. Francis Poxon.

Miss Marion Torrance, Mrs. William Douglas and baby of Lacombe were holiday visitors at the home of Mr. and Mrs. Stan Torrance.

The Carbon Legion are sponsoring the Pee Wee Ball Team. Sweatshirts and caps are on order, so they will soon be in action dressed in their new outfits.

Legion meetings in future will start on time at 8 p.m. Business to close at 9:20 p.m. Program Committee takes over till 10 to 10:15. Lunch served afterwards. Let's make our Legion alive. All members turn out and bring a new member. Next meeting on June 16 at 8 p.m.

MRS. AGNES R. REID
Mrs. Agnes Robertson Reid, 89, of Calgary died Monday afternoon in General hospital as a result of injuries suffered in a fall.

Mrs. Reid was born in Glasgow, Scotland and came to Carbon in 1902, where she and her husband farmed until his death in 1944. Mr. Reid was Secretary of the Village of Carbon for 29 years. Mrs. Reid moved to Calgary in 1945 and had lived there since.

Surviving are two daughters, Mrs. Frank Skerry and Mrs. Geo. Wise, both of Calgary; three sons, William of Carbon, Robert of Hesketh, and John of Vancouver; 16 grandchildren; 23 great-grandchildren. Besides her husband, a son, Alexander, predeceased her in Carbon in 1937.

Funeral services will be held Thursday at 2:45 p.m. in Jacques Funeral Home with Rev. J. B. Spencely officiating. Burial will follow in the family plot in Burnsland cemetery.

G.W. Schell Heads Carbon Fish & Game

The Carbon Fish and Game Association held its annual meeting on the evening of May 28 and elected the following officers:

President.....G.W. Schell
Vice-President.....Ted Schmidt
Secretary.....Vernon Ohlhauser
The following names were nominated for an executive—John Buchner, Dusty Poxon, Art Buyer, Dave Gieck, John Reid, G. Eslinger and G.E. Schell.

It was decided during the business session that the club would meet every first and third Wednesday evenings for trap shooting until the season is over. The trophy that was last won by G. Eslinger for best score out of a possible 100 in trap shooting will again be contested for on July 16th. The winner this year will be judged on best score out of a possible 50. This contest will be open to all local members.

The club is again paying for the collecting of crow and magpie feet and has offered a prize of a hunting knife to the boy or girl in the Carbon district that collects the most feet before June 30.

Cliff Harvey's Orchestra will provide the music for a Dance permitting, on June 14th. Hope June 6th in Acme Memorial Hall I get home alive.

Rev. & Mrs. Galbraith Honored

The congregation of the Carbon United Church held a farewell party in the church on Wednesday evening, May 23 in honor of Rev. and Mrs. Galbraith who are leaving for Edmonton where Mr. Galbraith is taking up work with the R.C.A.F. After a sumptuous pot luck supper brought by the people of the congregation, there was a short sing-song led by Len Poxon followed by a short program. Mr. James Gordon presented Rev. Galbraith with a gold wrist watch and Mrs. Galbraith with a coffee table. The evening closed with the singing of "For They Are Jolly Good Fellows."

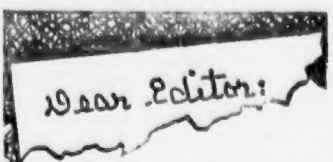

By The S. M.
On Saturday we went out for the day—the first trip out for the boys, and they were sufficiently satisfied that they didn't want to come home. Much talk went on between them about the possibilities of a camp, but I am afraid that it will not be possible this year.

However, they apparently had the time of their young lives trying to light a wood fire with not more than two matches (though some needed six), and then cooking a stew in a jam tin. A couple forgot to loosen the lid on their tins. I was trying carefully to loosen the lid for Arthur Hoivik, while his tin was getting red hot, and explaining patiently to him the dangers of a steam explosion, when a lid from someone else's tin went about 20 feet in the air. That demonstration did more than all my talk.

We had a game of "Convicts and Wardens" in which Carl Miers, dressed all in white, and Donald Deetjen, dressed all in green, acting as the convicts, were given ten minutes start to get away and hide and stay away without being found for a full hour, while the remainder of the boys had to hunt them. Carl was found in 55 minutes and a mad chase ensued with his eventual capture. Donald was invisible in the shrubbery and trees and was never seen until the end of the game.

After a dip in the creek for some of the hardier ones (but not yours truly), and then supper, came the wrangling about not going home and the idea of having a camp. If I had let them they would be arguing still, I believe. Dennis Marshman makes quite a picture, eating his supper and letting the others argue. He must be growing into a philosopher.

We go again weather and roads permitting, on June 14th. Hope I get home alive.

Kill Those Weeds With 2,4-D

The use of 2,4-D for the control of weeds in grain crops has become an established farm practice in the Prairie Provinces. Owing to unfavorable weather conditions, however, many farmers were prevented from doing a first-class job of killing weeds in 1951. Consequently, the control of weeds in growing crops is likely to be a problem of major importance in Western Canada this summer. The most effective solution to this problem lies in the proper use of 2,4-D.

The Weeds. 2,4-D is an effective killer of many annual broad-leaved weeds. As most annual weeds are more easily killed when they are young and in a condition of vigorous growth, early treatment is essential. Many perennial weeds too can be controlled with 2,4-D, but eradication is often difficult. Treating them during the active growing stage—generally near the bud stage—gives best results.

The Crops. Crops, like weeds, respond in a different way to treatment with 2,4-D. For best results, treat your wheat and barley crops just as soon as they have reached the 3-leaf stage, or when the leaves are 6 inches long. They can then be treated until they have reached the early shot-blade (boot) stage. Wheat and barley should not be treated from the boot stage to the fully-headed stage. Above all, avoid treating barley when the plants are very young or in the late boot to pre-heading stage. With oats there are two danger periods. Don't treat oats with 2,4-D when the plants are from 6 to 12 inches in height, nor when they are in the boot to the early milk stage. Treat flax just as soon as weed growth warrants, providing the plants have formed 3 or 4 leaves. Don't treat flax after the plants have reached the early bud stage.

Follow carefully the rates of 2,4-D application given on your 2,4-D container. Treat early for best results. Order your supplies now and be ready to fight weeds with 2,4-D in 1952.

Forestry Association Conducts Successful Poster Competition

Total of 947 Posters Were Submitted by School Pupils of Three Prairie Provinces—Alberta Girl Wins the Grand Prize

In connection with Forest Conservation Week, a poster competition was held, open to all school pupils in the Western Provinces, with Provincial prizes, and a Grand Prize for the best poster submitted.

This contest closed with a total of 947 posters submitted from the three provinces; Alberta, 382; Manitoba, 319; Saskatchewan, 246. As not more than three, and in most cases only one poster was forwarded from a school, over 700 schools, or school classes, took an active part in this project. Based on a class of twenty-five students, work on these posters was possibly undertaken by over 17,000 students. Returns were received from all over the West, from both City and Rural schools, with many entries coming from small forest and farm communities.

As the main objective of the contest was to interest the young people in conservation, and increase their knowledge in the importance of our forest resources, this undertaking met with considerable success. It served to increase the effectiveness of the Association's work amongst the young people, providing publicity material in forest conservation. Each year "conservation classes" are attended annually by over 100,000 school pupils.

The following acted as Judges in selecting the Prize Winners: Miss N. H. George, Mr. J. G. Somers, Mr. Corey Kilvert, Mr. Alan Beaven, all of Winnipeg, Manitoba.

Prize Winners

The Grand Prize of \$25.00, for the best poster submitted, was awarded to Miss Larone Ferguson, Keg River School, Keg River, Alberta.

Alberta

First Prize, \$25.00—Miss Larone Ferguson, Keg River School, Keg River, Alberta.

Second Prize, \$15.00—Miss Eileen O'Brien, St. Mary's High School, Edmonton, Alberta.

Third Prize, \$10.00—Miss Myrtle Campbell, Holy Angel's School, Fort Chipewyan, Alberta.

Five Honourable Mention Prizes of \$1.00—Miss Margaret Mercredi, Holy Angel's School, Fort Chipewyan, Alberta; Miss Alice Decoine, Holy Angel's School, Fort Chipewyan, Alberta; Mr. Fred Keen, Cadomin Jr. High School, Cadomin, Alberta; Miss Catherine Stead, Hamilton Jr. High School, Lethbridge, Alberta; Mr. Alex Konopelka, Rycroft School, Rycroft, Alberta.

Manitoba

First Prize, \$25.00—Mr. Garry Patton, Earl Oxford School, Brandon, Man.

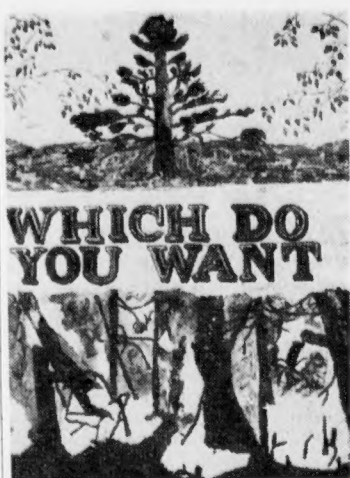

Second Prize, \$15.00—Miss Maida Bird, Earl Oxford School, Brandon, Man.

Third Prize, \$10.00—Mr. David Taylor, Earl Oxford School, Brandon, Man.

Five Honourable Mention Prizes of \$1.00—Miss Gwen Homeniuk, Isaac Brock School, Winnipeg, Manitoba; Miss Patty Jo Bennett, Isaac Brock School, Winnipeg, Manitoba; Mr. Keith McCallum, Earl Oxford School, Brandon, Manitoba; Miss Norma Paylor, Terrace School, Flin Flon, Manitoba; Miss Joan Thompson, Earl Haig School, Brandon, Manitoba.

Saskatchewan

First Prize, \$25.00—Miss Diana Deprose, Prince Edward School, Prince Albert, Saskatchewan.

Winner of First Prize for Alberta and also awarded the Grand Prize for best poster submitted—Miss Larone Ferguson, Keg River School, Keg River, Alberta.

PREVENT FOREST FIRES

Winner of First Prize for Saskatchewan—Miss Diana Deprose, Prince Edward School, Prince Albert, Saskatchewan.

Winner of First Prize for Manitoba—Mr. Garry Patton, Earl Oxford School, Brandon, Man.

Second Prize, \$15.00—Mr. Peter Bennedsen, Connaught School, Regina, Saskatchewan.

Third Prize, \$10.00—Miss Angeline Kosakowsky, Handel School, Handel, Saskatchewan.

Five Honourable Mention Prizes of \$1.00—Mr. Yung Mah, Central School, Prince Albert, Saskatchewan; Mr. Chong Mah, Central School, Prince Albert, Saskatchewan; Mr. David Lypchuk, Yellow Creek, S.D. No. 4337, Yellow Creek, Saskatchewan; Miss Audrey Schwinghammer, St. Joseph's School, Saskatoon, Saskatchewan.

The Association wishes to thank all those whose interest and co-operation made this contest a success. Our congratulations to the prize winners, and thanks to all the pupils who worked on posters. The help given by Art Teachers, School Teachers, The Press and Radio, and the three Forest Services of Alberta, Saskatchewan, and Manitoba, is acknowledged with thanks. We also wish to express our appreciation and thanks to the Contest Judges for their essential contribution to this project.

"TOUGH EGGS"

"Tough eggs" may have their place in a gangster picture but at a meal they are a reflection against the cook. Since eggs are a protein food they should always be cooked at low or moderate temperatures. 2986

Funny and Otherwise

His mother-in-law had written to say that she was coming to live with them. As, hatchet-faced, she approached the house, she saw a large crowd. Pushing her way to the front, she blinked in consternation at the damage a midnight fire had done—at the heap of bricks, the charred furniture.

"Dear me," she gasped, her face livid. "I didn't think he'd go as far as that."

"Have I a licence? Don't be foolish, officer!" said the woman motorist who had just uprooted a lamp-post. "They won't give me a licence the way I drive."

"So you and your neighbor are not on speaking terms?"

"No. He sent me a can of oil to use on my lawn-mower when I started to cut the grass at six in the morning."

"And what did you do?"

"Sent it back and told him to use it on his wife when she started singing at eleven at night."

"I've just been congratulating Colonel Blaise," said a guest at a luncheon. "He's been appointed governor of a prison."

"Really?" asked his pretty neighbour. "Now, for a job like that does one need influence, or does one start as a convict and rise from the ranks?"

The patron startled at the soiled bill of fare, then—by a fortunate fluke—catching the waiter's eye, he motioned that lordly gentleman over to his table.

"Waiter," said he, "you've got a splendid idea here. Just imagine! Samples of the different dishes glued to the menu!"

A puzzled motorist asked why one gate at the Irish level-crossing was closed while the other was open. "Sure, tis loike this, sor," he was told. "We're half expectin' a train."

Jeweler—Why do you want me to refund your money on this engagement ring? Didn't it suit?

Young Man—The ring suited all right—but I didn't.

SELECTED

Recipe

RICE NUT LOAF

A meat alternate is always a welcome addition to any homemaker's recipe file, especially when it is a low cost recipe. Rice and nut loaf has a meat-like flavour, is easy to prepare, is good served either hot or cold and is inexpensive to make. These points all add up to make it a recipe worth keeping on hand for those days when the budget is getting a bit strained or you want to serve a cold meat plate and need something to extend the meat a bit farther.

Here is a menu built around the Rice Nut Loaf.

Hot Rice Nut Loaf

Canned Corn Baked Potatoes

Frozen or Canned Green Peas

Chili Sauce or Catsup

Baked Apple topped with meringue

Custard Sauce Beverage

Rice Nut Loaf

2 cups cooked rice

1 cup fine dry bread or unsalted cracker crumbs

3/4 to 1 cup ground walnuts

2 eggs

2 tablespoons butter melted

1/2 teaspoon celery seed

1/4 to 1/2 teaspoon savoury

1/2 to 1/4 teaspoon sage (optional)

salt and pepper to taste

Mix all the ingredients together thoroughly and pack into a small loaf pan or into one end of a larger pan. Loaf should be at least 3 inches deep. Brush with additional melted butter and bake in moderately hot oven 375 deg. F. 35 minutes or until lightly browned. Yields 6-8 servings.

Serve hot with chili sauce, catsup, hot tomato sauce or homemade pickle relish.

Note: 1/4 to 1/2 teaspoon poultry seasoning may be used in place of savoury and sage.

For Eczema—Skin Troubles

Make up your mind today that you are going to give your skin a real chance to get well. Go to any good drug store and get an original bottle of MOONE'S EMERALD OIL—it lasts many days because it is highly concentrated. The very first application will give you relief—the itching of Eczema is quickly stopped—eruptions dry up and scale off in a very few days. The same is true of Itching Toes and Feet, Barber's Itch, Salt Rheum and other skin troubles. Remember that MOONE'S EMERALD OIL is a clean, powerful, penetrating Antiseptic Oil that does not stain or leave a greasy residue. Complete satisfaction or money back.

USE TREE AS LADDER—With all the extension ladders occupied, Beauharnois, Que., firemen ran one of the nine hoses fighting the recent boarding school fire up a tree less than 30 feet from the building. From this vantage point he fed a powerful stream of water into the upper floors of the building.

Sask. Led In 1951 Total Acreage Sown

OTTAWA. — Saskatchewan farmers sowed more than one-third the total acreage of field crops sown in Canada last year, according to Dominion bureau of statistics figures released.

Total Canadian acreage was 61,740,664, of which Saskatchewan's share was 23,696,293.

Largest acreage was sown to wheat which showed 15,634,917 acres, smallest sown was tobacco and sugar beets, which accounted for one acre each.

Other acreages were: oats, 3,815,268; barley, 2,448,738; mixed grains, 27,850; rye, 709,894; flax, 295,893; corn for shelling, 936; buckwheat, 281; peas, 1,369; field beans, 5; soybeans, 3; hay, 572,105; oats for hay, 150,004; other grain for hay, 14,264; corn for fodder, 1,841; potatoes, 15,709; turnips, etc., 357; other field crops, 6,857.

CHASE DIRT

Before repainting, walls that have previously been painted with an oil paint should be washed thoroughly with a detergent to remove all grease and dirt. This is particularly true of a kitchen where cooking deposits a film of grease which—if not removed—will interfere with the drying and adhesion of new paint.

Think Right—Live Right—Eat Right

PEGGY

New Drug Helped To Remove Peanut

CALGARY.—A peanut was responsible for a medical technique discovered by two Calgary doctors.

Use of the drug ACTH by Dr. M. K. McGougan and Dr. S. B. Thorson in removing a peanut from the throat of a two-year-old boy last June, saving his life, was termed a revolutionary discovery in the current issue of the Canadian Medical Association Journal.

The patient, Wayne Poffenroth, choked on a peanut with a violent reaction in his breathing tubes. Dr. McGougan at the Calgary General Hospital was unable to remove the peanut by normal extraction, because of the excessive swelling. He performed a tracheotomy, opening another channel to enable the boy to breathe, but the doctor was frustrated again when he attempted to remove the peanut through the new opening.

That same night Dr. McGougan drove 38 miles south to High River to discuss the case with Dr. Thorson. It occurred to them that an intramuscular injection of ACTH, previously used to alleviate allergic conditions and shock, might help.

Returning to Calgary at 3 a.m. June 1 they went to the hospital to try the experiment. The swelling and secretions immediately subsided, and the doctors finally were able to remove the peanut.

Dr. McGougan said there are several cases in Alberta each year of children choking on peanuts, one of which proved fatal last year.

DISCOVERY OF LAKE

Lake Winnipeg, discovered in 1732 by Jean de la Verendrye, has an area of 9,398 square miles.

If You're TIRED ALL THE TIME

GET AND USE

BECAUSE—
"Tired-out" feeling and backache are often due to urinary irritation and bladder discomfort; and for over half a century Dodd's Kidney Pills have helped bring relief from backache and "tired-out" feeling by stimulating the kidneys. Get Dodd's Kidney Pills at any drug counter. Look for the blue box with the red band. You can depend on Dodd's. 161

Don't Neglect Slipping FALSE TEETH

Do false teeth drop, slip or wobble when you talk, eat, laugh or sneeze? Don't be annoyed and embarrassed by such handicaps. FASTEETH, an alkaline (non-acid) powder to sprinkle on your plates, keeps false teeth more firmly set. Gives confident feeling of security and added comfort. No gummy, gooey, pasty taste or feeling. Get FASTEETH today at any drug store.

Miracle Drugs From The Slaughterhouse

By JEROME DREYER
(CPC Correspondent)

A miracle for victims of many diseases is taking place in the stockyards of Chicago. Hope is replacing blind despair as science reclaims more than 100 medicines from the glands, livers and tissues of cattle, pigs and sheep.

Although chemists have been able to synthesize many drugs, insulin, a hormone extract known for 30 years, defies them and every drop used by diabetic Americans comes from the slaughter houses and laboratories housed in side streets hard by the stockyards.

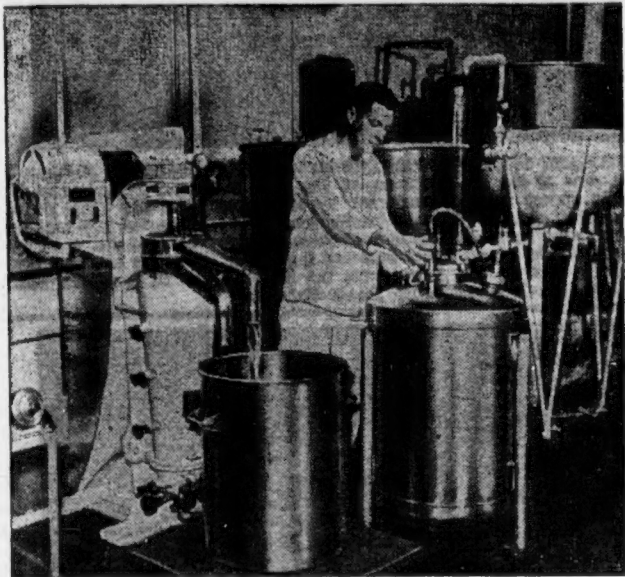

Among other life-giving pharmaceuticals produced in Chicago are liver extracts for the cure of anemia, cholesterol for the preparation of

tacular of the stockyard by-products and are helping the packers to reach their goal of "using all of the pig but the squeal."

Other by-products can be found in the Metropolitan Opera house where a meat by-product is used to string fiddles; in Florida in the canned orange juice industry, while another helps separate sand from iron ore in the fields of Minnesota.

A striking example of how the packing industry is exploiting the parts of the animal formerly discarded is a new chemical works at McCook, Ill., that produces 100,000,000 pounds of fatty acids yearly.

These acids are broken down into products with such mystifying names as palmitic 49, amide, nitrile and quatrenary, which become basic in-

No farmer would recognize his livestock in the spotless, stainless steel laboratory which utilizes waste products.—Central Press Canadian.

vitamin D, sex hormones, adrenalin used to treat shock and asthma, pepsin, thrombin and the newest of the miracle drugs, ACTH.

These medicines are the most spec-

GEMS OF THOUGHT

SILENCE

"Speech is silver, Silence is golden"; or, as I might rather express it, Speech is of Time, Silence is of Eternity.—Thomas Carlyle.

Silence is the perfectest herald of joy: I were but little happy if I could say how much.—William Shakespeare.

Surely human affairs would be far happier if the power in men to be silent were the same as that to speak. But experience more than sufficiently teaches that men govern nothing with more difficulty than their tongues.—Benedict Spinoza.

If people would confine their talk to subjects that are profitable, that which St. John informs us took place once in heaven, would happen very frequently on earth,—silence for the space of half an hour.—Mary Baker Eddy.

The temple of our purest thoughts is silence.—Mrs. S. J. Hale.

Blessed is the man who, having nothing to say, abstains from giving wordy evidence of the fact.—George Eliot.

HERE'S HEALTH

Sucking the thumb is a habit bred Of worries deep in a youngster's head

Unless a doctor suggests them to you

Mechanical remedies are taboo.

World's leading fur-bearing animal is, of all things, the skunk!

IN PAKISTAN

Strict Code For Women Losing Ground

KARACHI. — The purdah, strict Moslem code for feminine behavior which decrees that a woman should not display her beauty, is fast losing ground in predominantly Moslem Pakistan.

Feminist leaders say it will have vanished completely within 10 years. In the towns and cities, women are still seen wearing the "burqa", the voluminous, white, tent-like purdah garment which covers them from head to foot, leaving only a criss-cross openwork grill through which to peer.

But these are in the minority, probably less than 15 per cent. of the women in the whole country.

It is chiefly women of middle class who still cling to old purdah customs and even they now are being forced by circumstances out of their entrenched positions. The modern flats springing up are not built for purdah.

The orthodox cite the Koran which says:

"Say to the believing woman that they should lower their gaze and guard their modesty, that they should not display their beauty and ornaments except what (must ordinarily) appear thereof, that they should draw their veils over their bosoms and not display their beauty."

Against this, progressive religious thinkers hold the Koran to mean simply that women should observe due modesty in their dress and behavior becomingly in public.

Since the death of the late Prime Minister, Liaquat Ali Khan, the strict purdah school has shown signs of being once more slightly in the ascendant.

Mrs. Khwaja Nazimuddin, the wife of the present prime minister, weights the fashion scales in favor of orthodox, for she remains secluded in strict purdah and no wives are invited to the prime minister's receptions.

Two of the most outstanding women in Pakistan have always been in the forefront of women's emancipation and progress. One is Miss Fatima Jinnah, the sister of Pakistan's founder, Mohammed Ali Jinnah. The other is the Bergum Liaquat, widow of the prime minister.

Miss Jinnah served as an inspiration and example of feminist freedom by actively assisting in the furtherance of the career of her brother, while the Bergum Liaquat has taken a more direct course in fostering and helping to organize women's freedom organizations.

As yet only one per cent. of Pakistan's women are literate. Many of them are helpless outside their homes.

DAD OR DAUGHTER

The doctor rushed out of his study. "Get my bag at once!" he shouted. "Why, Dad?" asked his daughter. "What's the matter?"

"Some fellow just phoned he can't live without me," gasped the doctor, reaching for his hat.

His daughter breathed a sigh of relief. "Just a moment," she said, quietly. "I think that call was for me!"

On The Side : - By E. V. Durling

Should a husband turn his pay cheque over to his wife and let her be the family's financial manager? According to those who have studied the situation, it depends upon the intelligence and managerial ability of the wife. If there is any indication the wife is lacking in what it takes to handle money properly she should be put on a budget and also denied the privilege of charge accounts. In Great Britain the husband who turns his pay cheque over to his wife is a rarity. Not only that, many Englishwomen do not even know what their husband's salary is. I recently heard of an Englishwoman who had been in this unhappy position for some years. Then she suddenly decided to become a career woman. When she started to work her husband asked her what her salary was to be. This was a big moment in the lady's life. She refused to tell him. It is said of some married career girls that they spend 80 per cent. of their husband's salary and 90 per cent. of their own.

Parrot's Vocabularies

In England the parrots commanding the highest prices are those which have a talent for swearing. Yet one of the most valuable parrots in English history did not include one profane word in its vocabulary. This remarkable bird's specialty was reciting the Twenty-Third Psalm. It belonged to a Capt. O'Kelly, also the owner of the great undefeated thoroughbred Eclipse. During the races in which Eclipse took part the parrot would scream as the horses came down the stretch. "Eclipse first! And the rest nowhere!" Another interesting British parrot was named Robert. This bird laid its first egg when it was 125 years old. Its name was promptly changed to Roberta.

Canine Intelligence

A reader writes he has a liver-and-white female springer named Duchess who is allergic to inebriates. When Duchess sees an inebriate approaching she sits down on the sidewalk and howls. Reminds me of a dog I used to see some years ago in Sausalito, Calif. When his master was inebriated this dog would walk behind him with head down and his tail between his legs. The picture of dejection and shame. When his master was sober the dog would romp along joyfully by his side.

Steam Cars Were Fast

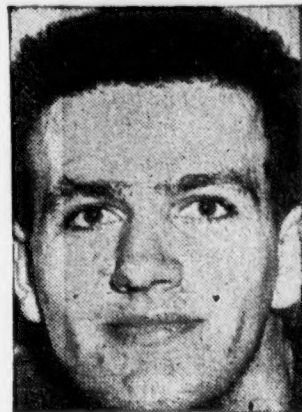

Do you claim to be a young old-timer in the automobile field? How many steam cars can you remember? Most people can recall only three: the Stanley, the White and the Doble. But there were many more. As for examples: the Grout, Tractobile, Toledo, Skene, Waltham, Prescott, Lane, Stearns, Ross, Mobile and Locomobile. An unusual steam car was the one called "the Stanley Mountain Wagon". It was a 12-passenger car and the greatest hill climber of all time. Those old steamers were speedy jobs, too. Forty-seven years ago, in 1905, a Stanley steamer did over 127 miles an hour at Daytona Beach, Fla.

SPORT

Calder Memorial Trophy Winner

MONTREAL. — Bernie "Boom Boom" Geoffrion of Montreal Canadiens was selected as the top rookie for 1951-52 in a season featured by more high-class first-year players than in any previous campaign. Geoffrion finished ahead of Hy Buller of New York Rangers and teammate Dickie Moore of Canadiens in the balloting.

In winning the Calder Memorial Trophy as "the player selected as the most proficient in his first year of competition in the National Hockey League," Geoffrion pocketed a cheque for \$1,000 from the National Hockey League. The high-scoring right-winger of Canadiens polled 58 points out of a perfect 90 in winning this award. Points were awarded on the basis of five points for a first choice,

Bernie "Boom Boom" Geoffrion

three for a second and one for a third. Eighteen hockey writers and broadcasters, three from each of the six N.H.L. cities, did the voting.

Geoffrion was the first selection of nine, the second pick of four and the third choice of one. This totals 58 points. New York's outstanding defenseman, Hy Buller, was the first choice of five selectors, the second selection of three and the third pick of eight. This gave Buller a total of 42 points and the runner-up slot. Bustling young Dickie Moore of Montreal, who plays any position on the forward line, finished third in the balloting with 36 points. Moore, who didn't join Canadiens until the first 26 games of the season had been played, had three first choices, six seconds and three thirds.

Other players to receive votes for the Calder Memorial Trophy were Paul Meger, Canadiens, 17 points; Wally Hergesheimer, New York, four points; Dick Gamble, Canadiens, two points; and Real Chevrefils, Boston; Dollard St. Laurent, Canadiens; and Alex Delvecchio, Detroit, one point each.

Boom Boom is the second player from Canadiens to win this outstanding first-year award. The previous wearer of the bleu-blanc-rouge to annex this honor was Johnny Quilty. Quilty won the Calder Trophy in 1940-41. The last two winners of this trophy have been goalkeepers. Terry Sawchuk of Detroit won it last season and Jack Gelineau of Boston did it the year before.

Bernie "Boom Boom" Geoffrion was born right in Montreal on February 14, 1931. He stands five-feet, nine inches tall and weighs 166 pounds. He is a right-handed shot and plays right wing. His shot is recognized around the National Hockey League as one of the hardest in hockey today. Boom Boom came to Canadiens direct from the Montreal Nationales Juniors toward the late stages of last season. He took part in 18 League games with Canadiens last season scoring eight goals and assisting on six others for 14 scoring points. He participated in 11 playoff games with the Habs where he garnered one goal and one assist. He was, therefore, a pretty experienced rookie when he started the 1951-52 season.

In 67 games with Canadiens this season Boom Boom scored 30 goals and assisted on 24 others for 54 points. He was Montreal's second best point-collector and the sixth highest in the National League. He was far from a shrinking violet, too, and amassed a total of 66 penalty minutes during the regular campaign. He recorded one of the few Hat Tricks in the N.H.L. this season. It was on January 27 against New York Rangers that Geoffrion illuminated the red light behind the New York goal three times.

Extremely popular with the rabid French Canadian fans who make up the biggest percentage of spectators at the Montreal Forum, Boom Boom is usually able to give them a thrill or two in every game. His style of play is very colorful. It's quite a sight to see him wing those bullet-drives of his in from the right-wing

Smoke Jumpers Take Annual Spring Training

PRINCE ALBERT, Sask.—Saskatchewan's smoke-jumpers, on call throughout the forest fire season to fly into remote northern timbered areas and tackle fires in their early stages, are getting their annual spring training.

The smoke-jumpers are used to fighting fires anywhere in the province's 100,000 square miles of protected forest. They parachute to fires from Saskatchewan government airways planes whenever they can reach the outbreak before overland crews. Water power units and various types of sprays are dropped with them.

Only men between the ages of 21 and 32 are accepted for the rugged occupation. Men with experience in bush work and forest life are preferred.

The rigid, three-week training schedule includes P.T. exercises, parachute packing, fire suppression work, map reading and eight practice jumps.

In June, when the hazard season is receding along the southern forest belt, the smoke-jumpers move to summer quarters at Lac la Ronge north of Prince Albert to fight fires in more northerly districts.

The jumpmaster is D. W. Kelly, in his sixth year as a smoke-jumper. He organized smoke-jumping here.

The performance by both

teams was unbelievably bad

on this deal from a match

between Britain and Ice-

land. At both tables South's

One Spade was followed by

two passes and East was

faced with a close decision.

The Icelandic player

doubled and South re-

doubled. West's Two Hearts

was passed round to South,

who bid Two Spades. West

now tried Three Diamonds,

which East passed, fearing

that West might bid on if

put back to Hearts! South

bought the contract with a

risky call of Three Spades,

but was only one down.

Our East player in Room 2

took the strange course of

reopening with One No-

Trump. South passed, and

so did West! East just made

seven tricks for a score of

90, but a contract of Four

Hearts would have yielded

650 points.

Tell-Tale Stickers Urged For Reckless Drivers

NEW YORK.—Traffic experts suggested that motorists arrested for reckless driving on U.S. highways should be forced to display red stickers on their windshields and rear windows, or surrender their drivers' licences for one year.

boards. He is a fast skater and an excellent puck carrier.

Geoffrion was married to Marlene Morenz, daughter of the immortal Howie Morenz, on May 3rd. Miss Morenz is one of Canada's outstanding young figure skaters.

Note: There are four basic rules governing the eligibility of new players as candidates for the Calder Memorial Trophy, as follows:

1—No candidate shall have played in more than 20 regular League games in any previous season in the N.H.L.

2—Try-outs of three games or less in any season or seasons whether as a professional or as an amateur are ignored entirely.

3—Playoff participation is not counted for any purpose.

4—Participation in more than three League games in two or more seasons disqualifies the candidate.

These regulations produce cases in which a player who has taken part in four games one season and five games in another is ruled ineligible, and where a player who has taken part in three games one season and 20 games in another season is classified as eligible.

Bull baiting was popular for a time in England, until it was banned in 1835.

HIROHITO CELEBRATES REBIRTH OF HIS COUNTRY—The date April 29, 1952, will long be remembered as an important day in the lives of the Japanese people, for it marked the first day of Japan's rebirth of independence after seven years of Allied control following ratification of the peace treaty. Significant also was the fact that on that same day Emperor Hirohito celebrated his 51st birthday, which was declared a national holiday in the country. Above the emperor is seen with his wife posing on the happy occasion in the parlor of their palace in Tokyo.

FOREIGN DECORATION FOR EVITA—Mrs. Eva Peron, attractive wife of Argentine president Juan Peron, is shown being decorated with the Syrian Omeyades Order during a recent ceremony in Buenos Aires. A member of the Syrian delegation in Argentina is attaching the ribbon of the order around Mrs. Peron's neck as he made the presentation in his country's name.—Central Press Canadian.

—Central Press Canadian.

FROM OUT OF THE PAST—Rumblings of a political movement led by three top ministers in Hideko Tojo's wartime cabinet are being heard as Japan assumes her new status of independence following recent ratification of Japanese peace treaty. Central figure in the movement is a "Japan Reconstruction League"—is rumored to be Mamoru Shigemitsu, seen above, ex-foreign minister who signed Japan's surrender aboard the U.S. battleship Missouri in 1945. Later he was convicted as a war criminal and was just recently paroled in 1950.

—Central Press Canadian.

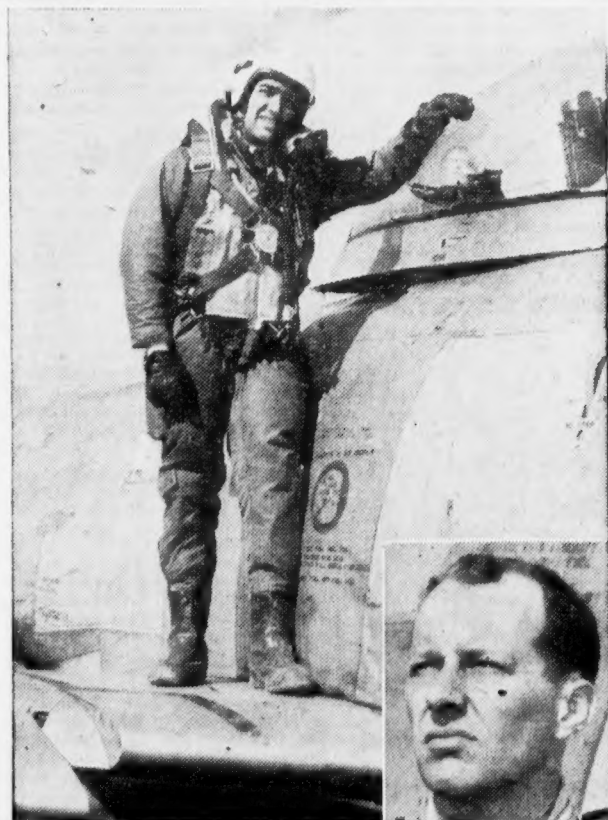

U.S. GENERAL FACES COURT MARTIAL OVER RED PROPAGANDA—The U.S. army has begun court martial proceedings against Major-Gen. Robert M. Grow, former military attaché in Moscow, whose personal diary reportedly fell into Communist hands in Frankfurt, Germany. He is charged with "improperly recording classified military information in private records and failing properly to safeguard classified military information." Grow in his diary-excerpts, which were released in a Communist-sponsored book published in Germany, is alleged to have called for war on Russia. He will be given an initial hearing and allowed to have counsel. The maximum penalty for conviction of the offence charged to him is confinement for five years, dismissal from the army, and total forfeiture of pay and allowances.

QUICKEST WAY TO "TRANSFER" ON ATLANTIC—In pictures just released, one of the 61 survivors of the U.S. destroyer-minesweeper USS Hobson is shown being transferred by helicopter from the USS Rodman to the aircraft carrier Wasp (in background). An estimated 176 men went to their deaths in mid-Atlantic manoeuvres when the Hobson sank after colliding with the Wasp, which suffered a slashing rip along her bow plates. Also taking part in the manoeuvre, the Hobson was on hand to pick up some of the survivors.—Central Press Canadian.

BEHIND THE SCENES OF GRADUATING CEREMONIES—Naval Cadet Flight Leader Nigel Brodeur, of Vancouver, is seen receiving last minute sprucing up at the hands of two of his classmates, Air Cadet Henry Beppe, of Kamloops, B.C., (left), and Navy Cadet Peter Watson, of Toronto, prior to the graduation exercises at the Canadian Services college, Royal Roads, Victoria, B.C. Sixty-six cadets were in the graduating class which was inspected by Major-General W. H. S. Macklin, C.B.E., C.D., adjutant general of the Canadian army and chairman of the three-member personnel members' committee, national defence headquarters, Ottawa, which is responsible for much of the administration of the Canadian Services colleges. Senior officers of the navy and air force were also on hand for ceremonies.—Central Press Canadian.

TOURING FLIERS—These airmen, parked by their F-86E jet fighters, are two of the men chosen by the R.C.A.F. for the current Sabre demonstration tour of Eastern Canada towns. Both Flt. Lt. Philip V. Brodeur, (inset), of Dorval, and FO. E. L. Fine, of Montreal, are members of Squadron 413 based at Bagotville, Que.

ENLIGHTENING MOMENT FOR GERMAN YOUTHS—Curious German boy scouts on a hike through the tent city of Canada's 27th Infantry brigade near Munsterlager, Germany, are seen having the mysteries of the doodlesack, German name for the bagpipes, explained to them by two members of the First Canadian Highland Battalion. Enlightening the youths are Lieut. "Jamie" Craik, (left), of Toronto, and RSM R. H. Finnie, of Camp Borden, Ont.—Central Press Canadian.

FIRST AID

First Aid is just what the two words imply, namely the earliest possible intelligent aid or help given to the victim of an accident or sudden illness. This aid is usually of a temporary nature only, to be given at once, at the scene of the accident or sudden illness and before a doctor is available to assume responsibility.

First Aid Temporary

REMEMBER that First Aid is temporary; dressings must be simple and easy both to apply and remove; bandages should hold splints and dressings firmly in place, and if they do this, neatness is not important.

Keep the victim lying down and in a comfortable position, with the head level with the body until the extent and seriousness of the injuries are known. Keeping the victim thus at rest may prevent further injury and at the same time help prevent shock. If flushed, the head may be raised slightly, or if vomiting turned to one side provided that there is no possibility of a neck injury being present. At the same time one should keep the victim warm but be sure not to overdo it as overheating is as bad as not enough heat. Maintain normal body temperature.

Serious bleeding, stoppage of breathing and poisoning must be given immediate treatment. If breathing has stopped the First Aider will probably know whether this is from drowning, gas poisoning or electric shock, the three most frequent causes. The immediate treatment is artificial respiration.

Examine the victim thoroughly for other injuries and be sure you find

them all. If the victim is conscious, it is usually easier to locate these, as pain is always an important indication. Let the victim guide you to one injury after another but make a complete examination yourself.

Have a clear view of the injury if possible, but remove the minimum of clothing. If the removal of clothing in the usual manner increases pain, rip or cut along the seams. Never, at any time unnecessarily expose a victim.

Organize bystanders and immediately send for a doctor telling him the exact location of the accident, the number of victims and the extent of the injuries.

When the physician arrives, tell him exactly what has been done and stand by to help him in any way possible.

It is very seldom that an accident occurs in an ideal environment for either First Aid or Medical Treatment. Unfavourable circumstances such as a busy city street or highway, a rainstorm or snowstorm or even curious crowds all tend to make the task of a First Aider more difficult. The victim himself may present a problem if under the influence of liquor in that he might actually resist the aid you would give. Well-meaning but misguided relatives and friends may become panicky at the sight of blood or unconsciousness and urge the First Aider to take hasty action which, with considered thought, he would deem unwise.

Under all of these adverse conditions, just as in the favourable ones, it is essential that the First Aider keep cool and calm, proceed with a systematic and careful examination, think clearly and methodically, and give the First Aid that you know to be right.

NEW LIFT

Try adding a pinch of marjoram to scrambled eggs before cooking. This herb gives a new lift to an old favourite.

ODDITIES In The News

Alice Doran answered a doorbell ring in Berkeley, Calif., and found a plain white envelope on the sill. Inside was \$11,700. The amount she lost in a San Francisco bus terminal. She's not asking any questions.

A little machinery factory at Mexico City, whose 11 employees won 552,000 pesos (\$60,000) in a lottery is still closed. Owner Julio Botello said he hadn't heard from the workers since they collected.

Sudden emergency halt of an express train on the main Gothenburg, Stockholm, line startled passengers and crew alike. Officials traced the cause to an elephant in a baggage room. The bored pachyderm had pulled the emergency brake cord with his trunk.

Determined to change a flat tire come what may, an unidentified motorist jacked up his automobile in the middle of Boston Summer tunnel and held up traffic for more than an hour at the height of the rush hour.

When 10-year-old Mary Elsengruber of Sebawaing, Mich., injured her left arm and had to wear a sling, teachers could at last tell the difference between her and her twin sister, Marilyn—until two days later when Marilyn injured her left arm and had to wear a sling, too.

When a train on the Nuoro, Sardinia, narrow-gauge railroad jumped the tracks, passengers and crew pitched in and put it back on the rails. But when it jumped the tracks a second time only a few minutes later, they left it in disgust and walked the rest of the way to the nearest station—at Lel.

Nicholas Smith lives in a new home at Huntsville, Ala., built of bricks which were made by slave labor more than 165 years ago. Smith discovered the old bricks on an overgrown lot and a research showed they had been part of a pre-civil war home.

PRISCILLA'S POP—Caught Red-Faced

The Sports Clinic

(An official department of Sports College)
Conducted by Lloyd "Ace" Percival

Eliminate Your Weak Spots In Hitting

Perhaps the best way to improve your hitting is to search out your weak points and eliminate them. The average hitter is content to wait for a certain type of pitch before taking a cut. For example, if he can give a fast and slightly outside ball a good long ride every now and then he's satisfied. This is a great mistake.

Here's why! If you have even one weak spot, say for example, you can't hit a low curve over the outside corner, you are always in danger of being a total loss in an important game or when you come up to bat when a safe hit is really needed. You see, any good opposing coach will have his players studying your hitting and if you have a weak spot, they will soon detect it.

Then, if their pitcher has control, he can throw to your weak spot and ruin your effectiveness. So search for your weak spots and then practice until you are an all-round hitter. You can test yourself by having a pal throw every type of delivery at you and you try to hit them. Keep a record of how well you do, then practice hitting the types of pitch you didn't handle so well. Ask your coach or teammates to help by checking on you.

If you do this, you will soon find, much to your surprise, that you have been hitting a certain kind of ball right at a certain fielder and have thus been getting out too often. Once you know this you can learn to hit this type of ball differently. Another good trick is to have someone watch your hitting to see if you are hitting under or over the ball when you miss it or just get a piece of it. Most batters don't realize why they missed a certain pitch. If you know, you can correct this error the next time up.

Yes, study your hitting and eliminate those weak spots. It will give you another effective boost toward the top!

**The Jog, Sprint, Walk
Conditioner for Track and Field**
This type of workout should be

used as a build-up for your harder training to follow.

Here's the idea: Each day go for a 1 to 1½ mile run, using the following system: Start off running slowly and easily, jogging in a relaxed fashion on the balls of your feet for 75 yards. Then, suddenly burst into a full sprint, running as fast as you can for 15 or 20 yards then slow down to a walk. Walk for 50 yards then start over again—jog, sprint, walk. Always finish the last 30-40 yards with a full sprint. Walk until your breathing returns to normal and make sure you keep warm.

Rebuild and Refuel

After those hard workouts make sure you replenish your body with those all important food elements.

Include in your post-game or practice meal plenty of fresh fruits, especially oranges; lean meat; honey; some vegetable salt in a quarter of a glass of water; Ovaltine as an energy drink; and some fresh vegetables.

If you follow these hints you won't get that draggy feeling the day after you have had, an especially hard workout, thus enabling you to perform your daily tasks with a much greater degree of efficiency and much more enjoyment.

Sports College, a national non-profit public service organization is operated to keep Canadians up to the minute on all the recent scientific developments in the world of sports, health, and physical efficiency. You can get more details on these subjects by becoming a member. To join just send a letter to Sports College, Box 99, Toronto 1, Ontario.

REINDEER COATS?

EDINBURGH.—Reindeer fur coats may result from an experiment in Invernesshire. Eight reindeer from Norway are being used at Rothiemurchus in an experiment to see whether animals can be bred in Britain to provide fur, food and new materials.

Answer To Last Week's Puzzle

—By Al Vermeer

Pioneer Printer Shot At Buffalo On Wild Prairie

MACLEOD, Alta. — Thomas Clarke figures he took part in one of the country's last wild buffalo hunts — from a train. And they didn't get the buffalo.

A pioneer Alberta printer, Clarke was on his way west in 1884 with a troop of Mounties. He believes he was the first man to set type for the Calgary Herald which started publication in the 1880s. The Mounties of course had already been on the Prairies for 10 years. They came to Macleod in 1875, the year that Clarke landed at Quebec with his parents from Suffolk, England, where he was born in 1863.

His father settled near Owen Sound, Ont., and young Clarke became an apprentice printer at Meaford, but the spirit of adventure caused him to move west in 1872. He got a job with the old Winnipeg Sun but soon enlisted in the North West Mounted Police.

He was sent to Qu'Appelle, Sask., then to Regina and helped to build the Regina police barracks. From there he went to Maple Creek, Sask., and on to Calgary in 1884.

It was on the train ride from Medicine Hat to Calgary, Clarke recalls, that a brakeman came into the coach and said there was a buffalo up the tracks.

"Everybody grabbed a carbine, regardless of number—the police numbered everything, even the man—and stuck them through windows and fired away as we passed. But nobody hit the Buffalo."

Clarke was given permission to work as a printer in Calgary while still in the police force, but in 1887 he got a job with the Macleod Gazette. Later, with his brother Fred, he started the Macleod Advance and Southern Alberta Advertiser.

He still has the equipment to turn out business cards and handbills at his home, but says that at his age "a fellow shakes a bit too much" to hold a stick of type.

Patterns

Transfer Designs
In Three Colors

by Alice Brooks

Spring's loveliest blossoms in sun-fight yellow, soft pink and delicate green. Makes new linens lovelier, old linens like new. Simply iron motifs on curtains, tea-towels, aprons. So quick to apply. NO EMBROIDERY! Washable.

Pattern 7011 has transfer of 16 motifs 1½ x 2½ to 4½ x 13 inches. To obtain this pattern send twenty-five cents in coins (stamps cannot be accepted) to:

Household Arts Department,
Winnipeg Newspaper Union,
60 Front Street W., Toronto.

Be sure to write plainly your Name, Address and Pattern Number.

NEW! The 1952 edition of our Alice Brooks Needlework Book! Brimful of new ideas, it's only Twenty-five cents. NINETY-ONE illustrations of patterns of your favorite needlecraft designs, plus SIX easy-to-do patterns printed right in the book.

It takes 35 men about three months to paint the dome of the capitol in Washington. 2986

IF UPSET OR SWAMPED HANG ON DON'T LEAVE BOAT

SPACE PASSENGERS EQUALLY ALONG THE SIDES
DISTRIBUTED BY CANADIAN RED CROSS
IN THE INTERESTS OF WATER SAFETY

If every person who steps into a row boat, sail boat, motor boat, or canoe of wood construction, realized that in the event of an upset the boat will likely fill with water, and settle low in the water, but it is still capable of supporting all its passengers if they will slip into the water and quietly hold on to the boat. The passengers will have to balance the craft by spacing themselves evenly around the boat. No effort should be made to climb up on the boat as this may cause it to roll and certainly will push it further under water. Of course, non-swimmers are very unwise to go out in any small craft unless they wear a reliable life jacket.

Every boat should be equipped with some sort of life buoy and an efficient, no cost type can be made by tying an airtight gallon can to each end of a 2 foot length of ¼ inch

rope. Any type of one gallon cans will be found suitable. Keep one of these buoys in the bow and one under the stern seat.

Free water proof transfers, as illustrated for affixing to boats or canoes, may be obtained from the Red Cross Water Safety Division, Regina.

Every boat owner, dealer, and sports equipment store is asked to help in the campaign to prevent drownings occurring as a result of boating accidents, by sending in their name, address and number of transfers desired.

The transfer is best placed on the centre seat of the boat, close to the side. The spot, chosen should be cleaned. Directions are supplied with each transfer. If a really permanent job is desired, a coat of clear varnish can be applied over the transfer.

1951 Was Good Year For Farmers

OTTAWA.—Farmers in 1951 had their second best production year in history.

The bureau of statistics reported that the physical volume of agricultural production, based on 1935-39 equalling 100, was estimated at 157.1 last year. The figure compared with 139.5 for 1950 and the record high of 164.2 set in 1942.

Bumper grain crops on the prairies, together with increased production of livestock, tobacco, vegetables, poultry, and eggs, were responsible for the high production index. The increase more than offset declines in the output of dairy products, potatoes, sugar beets, fruits, and maple products.

Window Screens Need Attention

A standard Spring chore for most householders is to repair, paint and install window and door screens.

Simplest way to remove the Winter's accumulation of dirt and grease from the mesh is to brush thoroughly with kerosene. When it evaporates, the loosened dirt can be washed out with the garden hose.

While copper and brass do not rust, these screens have a tendency to discolor light-colored trim and walls as rain drips from them. To prevent this, coat the mesh with thin varnish. Wipe the varnish on with a cloth or piece of old carpet, so that the mesh will not clog. Iron-wire screening should be protected with high-grade screen enamel, applied in the same manner.

Helpful Hints

Instead of using soap and water on windows, try using a cloth dipped in ammonia and whiting, and then polish with a chamois.

Sew a piece of chamois on the inside of the heel of the shoe, and this will prevent the shoe from rubbing the stocking. A new shoe will not be so apt to blister the heel.

Before putting a sweater into soap-suds, catch-stitch the button holes together so they don't stretch during the laundering.

Spread a layer of soap over your hot broiling pan and cover it with a wet dishcloth. By washing time, grease and food bits will slip off easily.

MANY SPECIES

Of the approximately 100 species of fleas, about one-third are American.

Lethbridge Flying Club Has Woman Pilot As Instructor

LETHBRIDGE, Alta. — The new flying instructor for the Lethbridge Flying Club is a woman who holds commercial pilot's licences in four countries. She also holds the highest possible certification in Canada as an instructor in instrument flying and in aerobatics.

She is Miss Vera Strodl, who came from England a short time ago.

On her arrival in Ottawa following her engagement by the flying club, she took her Department of Transport categorization tests and was given the highest certification.

She holds Canadian, British, American and Swedish commercial pilot's licences.

In England she flew fighters and bombers while with the air transport auxiliary during the war. She still is a member of the Women's Royal Air Force Volunteer Reserve. At various times she has piloted 90 different types of aircraft.

Miss Strodl, who embarked on her flying career at 16, will be an instructor for the R.C.A.F. instructor refresher course at Kenkon Field in Lethbridge in September.

GARDEN NOTES

Cultivation Not Only
Kills Weeds, But
Keeps Soil In Condition

Why Cultivate

Weed killing is only minor reason for cultivation. The main purpose is to put the soil in condition that favors growth of the flowers and vegetables we plant. Most soils, especially the heavier sorts, if left uncultivated will pack down so hard that plants either good or bad have little chance to flourish. Cultivation keeps them open, breaks up the hard lumps and lets in necessary air. In time, cultivation alone will greatly improve the texture of soil, though the addition of humus and fertilizer will speed the process. Experts usually cultivate their gardens, both flower and vegetable, once a week during the main growing season, that is from the time the soil is fit to work in the spring until, say, mid-July. This weekly cultivation is not much of a chore after the first digging or plowing in the spring. Much of it can be accomplished simply by dragging a cultivator (either hand or tractor powered) over the ground lightly.

Weeds do not get much of a chance to grow big in a week, though they will be a lot tougher to handle if left undisturbed much longer than that. It is really amazing how growth spurts along after a good cultivation. Especially is this true if the job is

done after a shower. Then it not only loosens the ground but it also very materially conserves moisture by checking evaporation.

A Healthy Garden

In pioneer days, it is true, so far as gardens were concerned, there were not nearly as many bugs lurking around as is the case today. These things increased as the country opened up, and if they didn't originate in Canada they soon hitchhiked here. Today we are literally surrounded by all sorts of things that will quickly ravage the garden unless we are on the alert.

But it is not difficult to have fine flowers and crisp vegetables even with all their enemies. The first care should be to keep the garden in healthy condition. A well-cultivated, well-fertilized plant is the first and main defense.

Of course specific bugs and diseases will require specific counter measures. Fortunately modern science has kept well abreast of the new troubles. Careful gardeners will always be on the watch for any attack, will examine any damage like wilted or partially destroyed or eaten leaves, will regard with suspicion any sudden check. Careful gardeners will also supply themselves with some sort of a duster or sprayer and the proper materials to go with them. There is all sorts of equipment available, and for the small garden it is not necessary to spend more than a dollar or two.

As a general rule, insects that eat the foliage are attacked with a poison such as DDT, arsenate of lead, etc., while those that suck out the juices like aphids and other plant lice are controlled with preparations incorporating nicotine or tobacco solutions, lime, sulphur or special soap. Finely ground sulphur dust is an excellent preventive for diseases like rust.

Quick Canadian Quiz

1. Our dollar loss from forest fires is how much in a year?
2. Canada's best customer for farm products is what country?
3. Where is this country's largest sugar plant?
4. In 1939 Canada's revenue was \$45 per capita; at war-time peak, in 1944, it was \$234. What will it be this fiscal year?
5. How much of Canada's area is within the Northwest Territories?

Smile Of The Week

She: "John, when we were first married you used to tickle my chin. Do it again."

He: "Okay, which one?"

RANK HIGH

Eggs rank high on the list of nutritive foods. Canada's Food Rules state that at least three eggs per person per week is a minimum.

APPETIZING RECIPES

These Coffee Bars are almost like cake—soft in texture, crumbly and delicious. Flavored with cinnamon and topped with a coffee glaze, they make a fine dessert in themselves.

Coffee Bars

One cup golden raisins, 2/3 cup strong coffee, ½ tsp. cinnamon, 2/3 cup shortening, 1 cup sugar, 2 eggs, 1½ cups sifted flour, ¼ tsp. baking powder, ½ tsp. baking soda, ¼ tsp. salt.

Combine raisins, coffee and cinnamon; let stand. Cream shortening and sugar; add eggs, one at a time, beating well after each addi-

tion. Mix and sift flour, baking powder, baking soda and salt. Add raisin mixture. Spread batter in greased shallow pan, 10" x 15" x 1" (jelly roll pan). Bake in moderate oven, 350 degrees F., 20 to 25 minutes. While warm, spread with coffee glaze made by adding enough strong coffee to 1½ cups confectioners' sugar to get a thin, spreading consistency. Cut bars when cool.

CANADIAN FASHIONS

FUR SHOW—A champagne squirrel coat worked like ermine and styled with a full sun-burst back and adjustable sleeves, is one of the furs presented by the Canadian Fur Industry for the fur parade, '52.

ANSWERS TO QUICK QUIZ

ANSWERS: 5. One third. 3. At Chatham, Ont., with a 3,000 tons a day capacity. 1. About five million dollars. 4. About \$300. 2. The United Kingdom.

VIRGIL

By Len Kleis

OUR COMPLETE SHORT STORY —

The Careless Cow

By Katherine Howard

Cupid Uses Curious Instruments.

AS THE big gray truck rounded the curve of the highway, Slim Harris, with a muttered ejaculation, slammed on the brakes and brought the truck to a sudden stop. A big cow blithely pranced into the ditch, missing the truck's headlights by an inch, and at the same instant a girl in a blue dress came running down the lane and out onto the highway.

Slim reached into his pocket for his small camera. She made a pretty picture, with her yellow hair flying, and he was a camera fiend. But as she came close to the truck, he saw that her face was flushed and indignant, and her blue eyes were sparkling angrily.

"What do you think you are doing?" she stormed. "You truck drivers think the highway belongs to you. Always in such a hurry . . ."

Slim leaned out of the cab. "Say," he dawled. "Why don't you teach that animal of yours that oil trucks pack an awful wallop. You'd better look after your cow in future." He started the engine.

"She's not my cow, that's the worst of it," said the girl. She looked up at Slim with eloquent blue eyes. "She belongs to my brother. He's just taken his wife to the hospital, and I've got to milk that beastly animal."

Slim turned off the ignition. If she wanted to be conversational, it was fine with him. She was cute all right.

"I just know she kicks," said the blonde girl, despondently. "Doesn't she look a kicker? How I'll manage I don't know."

Slim jumped down out of the cab. "Lady, I forgive you them hard words," he said. "I can't see a damsel in distress. Lead on. I'll bring old bossy to the barn and milk her for you."

"Oh, would you?" The blue eyes beamed with relief. "It's awfully good of you. Come, Julie."

Anne Adams Pattern Dept.,
Winnipeg Newspaper Union,
60 Front Street W., Toronto.

SOLDIER FROM ALBERTA
IS FIRST CANADIAN TO
TAKE JAPANESE BRIDE

Believed to be the first Canadian soldier to marry a Japanese girl, Pte. Earl MacMillan of Medicine Hat, Alta., will head for home shortly on leave from Canadian Postal Corps in Japan as soon as his bride is given a "clean bill of health" by medical authorities. The 21-year-old soldier, who was the first recruit in the Calgary district to join the Korean brigade in 1950, met his wife-to-be working in a souvenir shop in Kure where he went to shop for gifts to send home. Within three weeks he married her, winning her hand against the opposition of one Australian and two U.S. soldiers.

Cypress Park To
Get Electric Power

REGINA. — The electrification of Cypress Hills and the building of a new golf clubhouse at Kenossee are two of the major projects in the works program planned for the seven provincial parks this year, the bureau of publications reports.

The power line will be built from Maple Creek south to the park. It is estimated that 16 to 20 farmers will be served as well along the 25-mile route. The project is expected to be completed by the beginning of the tourist season.

Other improvements planned for the parks include a larger parking space and cabin improvements at Kenossee, four new two-room cabins at Greenwater lake, and construction of 16 miles of new fireguard, and improvement and seeding of four fairways on the golf course at Madge lake.

Landscaping and painting will be done in all the parks.

Canada Boosts
Wheat Exports

OTTAWA. — Canada boosted her wheat exports to 169,800,000 bushels in the first eight months of the current crop year, a 67 per cent. gain over the 101,400,000 bushels in the same period a year ago, the bureau of statistics reported.

The big gain in exports, with about one-third of the total going to Britain, was sparked partly by shrinking world supplies at a time when Canada's own stocks were bountiful.

Do You Know That . . .

There are no reindeer at the North Pole, which is water covered with pack-ice. Reindeer never venture far on the pack-ice since they must be on land to get footing.

his little eyes turning stony. "What're you talking about?"

"This," said Slim, taking the little camera out of his pocket. "I was just snapping a picture of bossy, shall we say for sentimental reasons, when what should come into the picture but a green coupe, and the camera never lies, brother."

And as he drove Anna back to the farm, with poor Julie in the back of the truck, Slim idly speculated on what curious instruments Cupid uses to perform his naughty tricks.

Mother's Day Special

THE PAS, Man. — Mother's day, was a big event for Mr. and Mrs. Arvid Grant of The Pas. Mrs. Grant gave birth to triplets—two girls and a boy. All are doing well. The Grants have three other children.

Ban Saskatchewan Stock

MEDICINE HAT, Alta. — Livestock from Saskatchewan will be banned at the 1952 Medicine Hat exhibition and stampede. Directors voted to continue the stampede, scheduled for July 17 to 19. But they made it clear the show still could be cancelled if the foot-and-mouth disease outbreaks get worse in any sector of Saskatchewan. Another precaution to be taken this year will be an official veterinary inspection of all stock brought to the stampede, either for exhibit or for competitive purposes.

Plans Street Paving

HERBERT, Sask. — Mayor Herb Wiebe said that Herbert council plans to spend \$11,000 to pave the main street of the town this year. Ebbitts Construction company of Saskatoon will do the job, Mayor Wiebe said.

Good Catch

MOOSOMIN, Sask. — Art Price, Moosomin postmaster, opened the angling season in grand style. A trip to the Pipestone river, eight miles south of town, netted him two king-size pike, a 16-pounder and a 12-pounder.

Planting 20 Million Acres

EDMONTON — Alberta farmers are expected to plant approximately 20,000,000 acres of grain this year, the provincial agriculture department said.

Venturesome Gopher

YORKTON, Sask. — A gopher nitch-hiked into town for a short visit. The animal was seen to hop down to the pavement from a farmer's car, and hop right back again when the car started off.

To Hold Exhibition
Despite Limitations

BRANDON, Man. — Alex McPhail, president of the Manitoba provincial exhibition stated emphatically here the provincial exhibition will be held this year despite cancellation of all cattle, sheep and swine classes.

"We have many other features to offer which will provide a real show for the Manitoba public," Mr. McPhail said, mentioning particularly the first annual Manitoba trade fair, presented this year in co-operation with the provincial department of industry and commerce.

"There will also be a heavy horse show, unexcelled in western Canada, a good light horse show, and a large poultry show," he said.

The Greeks branded their slaves with a Delta sign.

To Destroy Old Home

EDMONTON, Alta. — One of Edmonton's oldest homes, a brick dwelling built in 1900, is being torn down to make way for a downtown parking lot. The city purchased the structure in 1905, and it has been leased to various business concerns. It is felt that revenue from parking cars will be greater than rents for the house.

Yorkton Plants 1,400 Trees

YORKTON, Sask. — Yorkton has always been proud of its many tree-lined streets and recently the city works department set out another 1,400 elm from six to eight feet in height. Three hundred were planted at the cemetery and the others on the boulevards.

Fussy Fishermen

REGINA. — Work done by biologists in protecting the fish population of Saskatchewan lakes was outlined by Morris Ferrie of the provincial game branch. "The biologist must also study the fisherman, the hardest to handle of all life," he said. "They want just certain fish, and this throws the balance off."

BLUE BONNET Margarine is sold in regular economy package with color wafer, also in the famous YELLOW QUICK bag for fast, easy color.

Dumplings—light and
fluffy with MAGIC!

MUSTARD-PICKLE DUMPLINGS

Mix and sift into a bowl, 1½ c. once-sifted pastry flour (or 1½ c. once-sifted hard-wheat flour), 3 taps. Magic Baking Powder, ½ tap. salt. Cut in finely 2 tbs. chilled shortening. Make a well in dry ingredients and add ½ c. finely-chopped mustard pickle in sauce and ¼ c. milk; mix lightly with a fork, adding milk if necessary, to make a drop dough. Drop in 6 portions, over hot cooked stew. Cover closely and simmer (never lifting the cover) for 15 mins. Yield—6 servings.

THE TILLERS

—By Les Carroll

Beiseker

Miss Helen Hagel spent the weekend at the home of her parents.

Mr. and Mrs. Adam Velker were visitors for a few days in Montana, U.S.A.

Mr. Raymond Schwarzenberger left for Fort Simpson where he is employed for the summer.

Mr. and Mrs. E.B. Hagel and family motored to Consort for the weekend to be with Jimmie.

Mr. and Mrs. Peter Ternes and Glenna spent the weekend at the home of Mr. and Mrs. O. Ternes.

Mr. and Mrs. Heinzelmier of Rockyford spent the weekend at the home of Mr. and Mrs. Florian Mayer.

Mr. Emmanuel Hagel spent the holiday weekend at the home of his parents, Mr. and Mrs. Felix Hagel. Emmanuel is now working in Saskatchewan.

The pupils of Mrs. Allan Berreth held a Recital in the Zion United Church on Wed., May 21. Taking part were: Charlotte Rempel, Ann Lohrke, Donna and Daniel Harris, Margaret and Joey Wright, Dolores and Jeanette Wegener, Beatrice Brosteaux, Elvera Kroschel, Virginia Berreth, Kathryn and Douglas Skene. Proceeds went to the Crippled Children's Hospital. Following the recital Mrs. Berreth was presented with a gift as a token of appreciation from the pupils.

Mr. and Mrs. Val Schmaltz were Edmonton visitors over the holiday weekend.

Mrs. A.A. Wald and Mrs. E.B. Hagel were delegates at the C.W.L. Diocesan Convention held in Calgary June 2, 3, 4.

Herbert Johnson, a member of the Lord Strathcona Horse was sentenced to 18 months with hard labor for attempting to rob the Purity Service Station in Beiseker early Wed. morning. Our good friend Percy is a real hero. He was most important in helping to capture the would be robber. F.P. Schmaltz noticed the suspicious looking character and immediately phoned Cpl. Byers. With the help of Percy the suspect was picked up right away. Good boy, Percy.

The second annual banquet of the Beiseker C.W.L. was held on Thursday, May 29 in the Memorial Hall with a large attendance present. The new president, Mrs. A.A. Wald, welcomed the ladies and guests with a very inspiring speech.

Father Tennant introduced the guest speaker for the evening, Rev. Father Tessier of Carstairs. He gave a very interesting talk on parts taken from the book, "You Can Change the World" by Father James Keller, and also stressed the importance of religious education in the home and school.

This was followed by a piano selection by Mrs. L. Brosteaux. The banquet was followed by the regular monthly meeting with installation of officers taking place. Plans were made for a strawberry festival to be held the latter part of June. Mrs. Plowman, a new member of the League, won the pool for the evening.

Teaching As a Career

By Dr. Stanley Clarke,
Faculty of Education

These are the days of big thinking. machines do the work,

Mr. and Mrs. Chas. Stinn of Calgary were visitors at the latter's home for the weekend.

Mr. and Mrs. Ken Wright and family spent the weekend at Sylvan Lake.

Mrs. F.A. Lount has returned home after travelling for several weeks through the United States.

Mr. and Mrs. Darce Olsen were Banff visitors for the holiday weekend. Other visitors from Beiseker were Mr. and Mrs. W. Rempel and children Mr. and Mrs. Chas. Weisgerber, Margaret and Pearl; Mr. and Mrs. Chas. Lohrke, Mr. and Mrs. Carl Lohrke and Ann; Mr. and Mrs. L. Brosteaux and family, Miss Annadean Hagel.

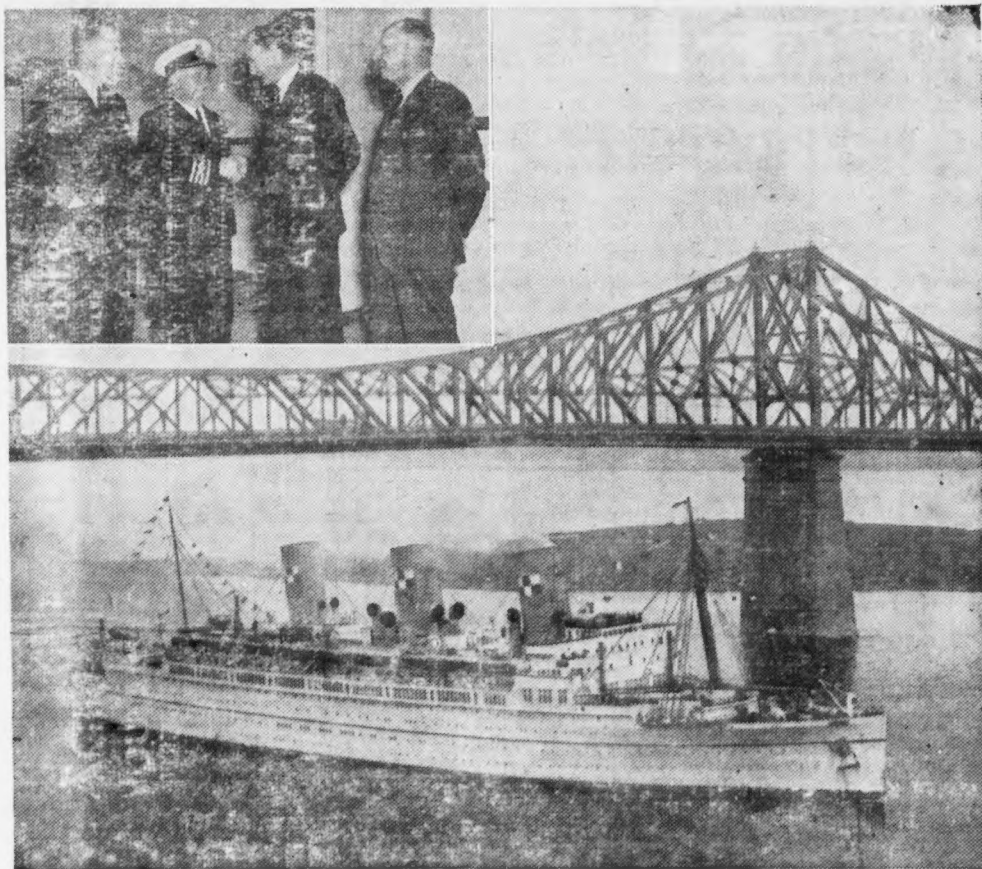

prices are high, oil makes us teachers on the lives of its future citizens. That is why prospective teachers must have a good "starting pay \$200 a month" and personality and a sound character. That is why they are given well to think again. Is there any training in the factors which possibility of promotion? Pay develop personality and character raises? Security of tenure? Is there a pension scheme?

Teaching as a career offers all in the lives and beliefs and attitudes of her students. The farmer takes pride in a machine functioning perfectly. How much more pride is possible for the teacher, watching students become decent, upright and valuable citizens of the world of tomorrow.

Where teaching as a career has its real advantage is in what it does for you, and for the world. No other course of training concentrates more on some of the most urgent and important human problems, such as how to get along with other people, and how to raise children into worthwhile and decent human beings. If you choose teaching as a career you are trained in these matters. Society recognizes the importance of

CHIROPRACTIC

Dr. Ramsey, Chiropractor. (Palmer School), Olds, Alberta. X-ray services available at the Olds Offices. Specializes in foot, stomach, goitre and eye troubles. Closed Wednesday.

The Empress of Scotland, 26,300-ton flagship of the Canadian Pacific fleet is shown here passing under the Jacques Cartier Bridge at the entrance to Montreal harbour to make history as the largest vessel ever to arrive in the world's largest inland port. The big luxury liner and cruise ship, which had to have her masts shortened by almost 45 feet to clear under the bridges and power lines on the way up river from Quebec, will make Montreal her Canadian terminal for the remainder of the 1952 St. Lawrence navigation season.

The 666-foot long vessel carries 663 passengers, and will make one trip every three weeks between Liverpool, England, Greenock, Scotland and Montreal. The inset shows Capt. C.E. Duggan (in uniform), master of the largest and fastest vessel on the St. Lawrence route, being welcomed to Montreal by Capt. J.P. Dufour (second from right) Montreal harbor master, while looking on are A.C. MacDonald (left), managing director of C.P.S., and Andre Gauthier, river pilot, who was aboard the vessel for the 139-mile run up river from Quebec.
